DETAILED ACTION

1. Claims 1-11 and 14-15 are pending in this application.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11 (in part) and 14-15 (in part), drawn to compounds of formula (I) where C = pyrimidine-phenyl (see Examples 1-2 and 6).

Group II, claim(s) 1-11(in part) and 14-15 (in part), drawn to of formula (I) where C = thiazole-phenyl (see Example 3).

Group III, claim(s) 1-7 (in part), 9-11(in part) and 14-15 (in part), drawn to of formula (I) where C = pyridazine-phenyl (see Examples 4-5).

Group IV, claim(s) 1-11 (in part) and 14-15 (in part), drawn to others e.g. phenyl-phenyl, thiazole-pyridine, etc.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I is a pyrimidine ring attached to a phenyl ring and is different from the special technical feature of Groups II-IV. The special technical feature of Group II is a thiazole ring attached to a phenyl ring and is different from the special technical feature

Art Unit: 1624

of Groups I and III-IV. The special technical feature of Group III is a pyridazine ring attached to a phenyl ring and is different from the special technical feature of Groups I-II and IV. The special technical feature of Group IV is others e.g. see groups H, M, N, O, P, Q etc. in claim 1).

If applicants elect Group IV, applicant have to elect a single disclosed species from the specification.

A telephone call was made to Ms. Heidi Berven on 6/1/2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions

unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kahsay Habte whose telephone number is (571) 272-0667. The examiner can normally be reached on M-F (9.00AM- 5:30PM).
